THE BLUE RIBBON LIST

OF THE

World's Finest Daffodils

1951

Listed herein we offer the **FINEST** in Daffodils, 1043 varieties including 126 outstanding new varieties brought in from abroad last year. All varieties on this list may be seen growing at our Nurseries in Gloucester and Mathews Counties, Virginia. **PRICES**, especially on most novelty types have been considerably reduced, and are for **TOP** size double nosed bulbs. (do not be led astray by cheap offers which are usually for small inferior bulbs). All are guaranteed true to name and are Certified by the State Entomologist and his Inspectors as free from disease. The grower of these outstanding varieties has had many years experience with Daffodils, which include 20 years as farm manager for one of the Largest Dutch growers of fine daffodils.

Virginia grown Daffodils, planted in the North bloom two to three weeks earlier than those grown in the cooler Northern climate. Flowering this much earlier they have a chance to develop slowly and fully while the weather is still cool. This is important with the highly colored reds, oranges and especially so with the pinks and many delicate shadings that are seldom seen when flowers open late in the season during warm bright weather.

Digging of bulbs must be completed in July, and some varieties on this list will not be dug unless ordered. It is therefore Important that orders be sent in **EARLY**. A 5% discount in bulbs (my selection) will be given on all orders received before 31 July. Shipment of bulbs will be made early in September. Check with order please, or if desired they will be sent C. O. D.

Reference: Bank of Gloucester, Gloucester, Va.

PLANTING INSTRUCTIONS FOR DAFFODILS

The main requirement for success is a well drained soil. They are not happy in a wet spot where water will stand. Any good garden soil is ideal. Cow manure mixed in the soil at, or preferably before planting time, is ideal and will produce blooms and bulbs of unbelievable size. Bone meal is the only safe substitute to use at planting time. A top dressing of stable manure is always helpful during the winter months, serving also as a mulch. In the Middle Atlantic states plant bulbs deep enough so the neck of the bulb is covered with 3 or 4 inches of earth after the ground has settled. In the more Northern states 4 or 5 inches is desirable, while in the Southern states 2 or 3 inches is sufficient. **Early** planting is advisable so that the root system can develop before cold weather sets in. All questions pertaining to daffodils cheerfully answered.

* following a variety indicates it has won a coveted award at the famous English or Dutch daffodil shows.

Featured in this list are 126 new importations emphasized for your convenience, by larger print. To make room for these we have omitted the names of 130 some varieties which appeared in our 1950 list; but still retain stocks and will gladly quote prices on same.

QUANTITY PRICES

On all varieties we give 12 bulbs for the price of 10; 50 bulbs for the price of 40; and 100 bulbs for the price of 70. EXAMPLE—Carolina, 1 bulb \$.30; 12 bulbs \$3.00; 50 bulbs \$12.00 and 100 bulbs \$21.00.

BUSHEL BARGAINS

If not on our mailing list write for our DAFFODILS ON PARADE in July; we will then have completed digging and know what we can offer in quantity by the bushel for mass planting. This list also contains descriptions of over 400 varieties with approximate blooming periods and comments on 1951 flowering season.

MIXTURES

SPECIAL NOVELTY — An unexcelled mixture containing over 500 of the truly distinctive varieties listed in this folder. By the law of averages you should get 40 to 50 and get up to 100 varieties in 100 bulbs. Planted in a cutting bed they will give ample and diversified blooms for the home over a long period each spring. **ACTUALLY WORTH DOUBLE THE PRICE** ----- **6.30 for 100**

REGULAR — Commercial varieties, mainly those listed by seed stores, also those used by greenhouses for forcing ----- **5.60 for 100**

NATURALIZING — Only varieties which are adaptable to compete with nature in the wild state. Mixed - White - or Yellow ----- **each .10**

ROCKERY — Small or miniature varieties suitable for Rock Gardens ----- **each .10**

FALL BLOOMING CROCUS

STERNBERGIA LUTEA — Bright yellow flowers on 6 to 8 inch stems blooming in mid-September. Large plantings are to be seen in Colonial Williamsburg. Ready for shipment June 1 and should be planted in your garden by July 1. ----- **each .25**

Additions to our new pink daffodils are, Coralie, Foyle Osbert Sitwell, Pinocchio, Promisso, Rosy Diamond, Rosy Pink and Toscani.

New Rockery varieties are, Bartley, Bulbocodium Filifolius, Cairhays, Calathinus, Cyclamineous, Dawn, Elfhorn, Golden Cycle, Jonquilla Minor, Little Witch, Minimus, Pease-blossom, Pipers Barn, Pumilis and Wee Bee.

In 2b (formerly classified as Giant Leedsii), Crebilly, Diplomat, Duncan, Early Morn, Greenore, Manchu, Penelewey, Pegelly and Raphoe.

In 3b (formerly classified as Small Cupped Leedsii), we offer New Moon.

For those interested in the older types introduced before or around 1900 we offer, Albatross, Albus Plenus Odoratus, Autocrat, Barri Conspicuus, Bianca, Bifloras, Buttercup, Bulbocodium Conspicuus, Canaliculatus, Cassandra, Dorothy Wemyss, Duchess of Westminster, Elizabeth Ryan, Firebrand, Fuselier, Gloria Mundii, Homer, J B M Camm, Katherine Spurrell, Lucifer, Mrs Langtry, Mrs Thompson, P R Barr, Seagull, Sir Watkin, Strongbow, Trumpet Major, Will Scarlett and William Goldring.

We will gladly order copies of the **DAFFODIL AND TULIP YEAR BOOK** published by the Royal Horticultural Society in London each autum, price \$1.50 per copy.

At the present time we have a small stock of the new **R. H. S. Classified List of Daffodil Names**, price \$1.00 each.

Publication of both the above books in 1950 was considerably behind promised date of delivery due to a paper shortage in England. We apologize to our many patient customers for the long delay in filling orders.

FRESH DAFFODIL BLOOMS

ORDER NOW

MARVELOUS FOR EASTER GIFTS. Available 1 March-15 April. Cut in our fields one day, delivered to your home the next; no middle man, no delay. Double value in quality, quantity, unusual varieties, fresher and longer lasting flowers. These NOVELTY BOXES contain 12 dozen (144) flowers in 12 distinctly different varieties. Raising over 1052 varieties from which to select, customers who order boxes at weekly intervals seldom get any duplications throughout the blooming season. Unless blooms are wanted on a particular date we suggest you mark orders "At Best". This will allow us to send when we have the finest selection of blooms and when the varied spring weather is just "Right" for shipping. We guarantee delivery of all blooms in good shape to any point east of Chicago and no further south than Georgia. Flowers mailed here at 6 p. m. are delivered in New York, Pittsburgh or Savannah between 7 and 9 a. m. the following morning, and to further points by mid or late afternoon.

PRICE — including Special Delivery ---- ~~\$3.75~~ per box
\$4.00

To satisfy a growing demand for NAMED COLLECTIONS of Daffodil blooms we will fill orders for NOVELTY BOXES containing NAMED collections of 24 varieties, 6 blooms of each variety correctly labeled.

PRICE — including Special Delivery --- \$5.00 per box

Collections of single specimen blooms, 10 cents each provided order amounts to at least \$5.00. Garden Clubs and lecturers find these most useful and instructive at their early spring meetings. Garden Clubs may deduct the price of their specimen blooms from their bulb order provided it amounts to over \$75.00.

LABELS FOR DAFFODIL PLANTINGS. After years of searching we have what we consider the IDEAL label. The 3½ by 1 inch zinc name plate has 4 holes through which the two 12 inch aluminum wire legs are inserted. The name plate can never come loose. If names are written on with weatherproof pencil they remain legible for at least 3 years.

Price per doz. ----- \$1.15

VASES FOR DAFFODIL BLOOMS. Anyone who has ever tried to arrange these flowers in the ordinary flower container knows how difficult it is to get them in the right position and then make them stay put. In Colonial Williamsburg we found an 18th Century vase which is IDEAL. Not too tall, nor too wide at the rim or too narrow at the bottom. A famous Potter at Williamsburg copied it for us. They are shaped by hand on a Potters wheel from the famous clays found at Jamestown and Williamsburg and are finished with a hard clear glaze of Daffodil green. A smaller vase was designed to hold from 1 to 3 specimen blooms, while the larger size is ideal for up to a dozen flowers.

PRICE — Small \$1.00 each — Large \$1.50 each — Post-paid.

REVISED SYSTEM FOR THE CLASSIFICATION OF DAFFIDOLS

Effective on and after 1 January, 1950.

i) "Colored" means yellow or some color other than white.

(ii) "White" means white or whitish.

(iii) The length of a perianth segment (petal) is the extreme length measured on the inside from its junction with the corona (cup) along the midrib to the extreme length measured from its junction with the perianth to the end of its furthest extension when the edge is flattened out.

DIVISION I. Trumpet Narcissi of Garden Origin. One flower to a stem; Trumpet or Corona as long or longer than the perianth segments.

(a) Perianth colored; Corona colored, not paler than perianth.

(b) Perianth white; Corona colored. (c) Perianth white; Corona white, not paler than perianth. (d) Any color combination not falling into a, b or c.

DIVISION II. Narcissi of Garden Origin. One flower to a stem; Cup or Corona more than one third, but less than equal the length of the perianth segments.

(a) Perianth colored; Corona colored, not paler than perianth.

(b) Perianth white; Corona colored. (c) Perianth white; Corona white, not paler than perianth. (d) Any color combination not falling into a, b or c.
